Avocado Green Mattress Pillowtop

CRs Take

This Avocado pillow-top model adds 2 inches to the profile of the lower-priced Avocado Green mattress and shares that model's top-notch durability and middling stability. In CR's tests, support for almost all types of sleepers was rated Very Good (large and tall back sleepers will find so-so support), but that's a notch below the original Avocado's first-rate ratings. Another difference: This pillow-top model retains heat, offering you a toastier slumber.

About

The Avocado Green Mattress Pillowtop is part of the Mattress test program at Consumer Reports. In our lab tests, Mattress models like the Green Mattress Pillowtop are rated on multiple criteria, such as those listed below.

Petite side sleeper: Sleepers small in both height and weight.

Average side sleeper: An average of both the petite and large scores that applies to many people.

Large/Tall side sleeper: Side sleepers who are above 6 ft 2 inches tall and/or 220 pounds.

Specs

Type	Innerspring
Dimensions (LxWxH)	80 x 59 x 14
Latex foam	Yes
Gel-infused foam	No
Resists bounciness	Yes
Eases movement	Yes
Grips	4
Retains warmth	Yes

Type: Indicates the main composition of the mattress, such as innerspring or memory foam. Some so-called "hybrid" innersprings include one or more levels of foam on top.

Dimensions: The mattress's dimensions, length by width by height, in inches.

Latex Foam: An alternative to memory foam.

Gel-infused foam: A layer of foam infused with gel, which is claimed to make you feel cooler in bed, especially with memory foam.

Resists bounciness: Indicates whether the mattress can absorb impacts, minimizing the bouncy feeling you might encounter while changing sleep position.

Eases movement: Indicates whether the mattress has enough resilience to allow easy changes in sleep position.

Grips: Helpful when handling the mattress.

Retains warmth: Some mattresses are more insulating than others and trap body heat, making you feel warmer.
