

# We are building the most valuable Machine Health company in the world

## 1. Multiply Market Reach

Capture existing and new segments as the industry rapidly digitizes.

## 2. Lead the Category

Establish Machine Health as the foundation for operational resiliency and industrial digitization.

## 3. Drive Global Adoption

Scale deployments, service and product capabilities to meet the needs of our customers across geographies.

## 4. Scale with OEMs

Scale embedded and retrofit OEM roll-outs across multiple rotating equipment categories.

## 5. Improve Business Health

Optimize unit economics by better aligning offerings to value.

SLIDES PROVIDED BY AUGURY

## Thank You

Augury isn't a program. Programs end. Augury is a culture. And this culture is saving downtime, money, and negative environmental impact at scale.

Corporate Operations & Safety Manager,  
NEFCO Biosolids
